

# MONEY. TIME. EFFORT.

Just a few things  
we don't want you  
to flush down the drain.

So here are the **TOP 10**  
things to look for in a plumber.

1. Are they on time?
2. Are they neat and tidy?
3. Do they have GPS Tracking to ensure accurate billing?
4. Are they polite?
5. Do they use quality materials that last?
6. Do they fix the **PROBLEM** and not the symptoms?
7. Offer the correct and most advanced approach?
8. Have what they need for the most common jobs?
9. Advise you of your problem and your solutions?
10. Have experience?

At **ANSA** we strive to not only meet but exceed your expectations. Our fully qualified plumbers and gas-fitters are willing and able to **ANSA** all your plumbing needs.
